## ITEMS OF INTEREST

Keen interest is being shown in the announcement that an additional 20,000 acres of Indian lands in the Peace River district will shortly be opened for settlement. A public sale of several reserves located on the north side of the Peace River will be held at Fairview on Saturday, June 15th. The largest single tract to be included is the Beaver Indian Reserve adjoining the town of Fairview and as this comprises some excellent farm land, bidding is expected to be brisk.

Reports from the southern part of the province indicate very satisfactory prospects from the beet growing areas. It is estimated that some 9,000 acres have been seeded to this crop, the largest acreage in the history of the province. Seed germinated uniformly, and in a number of early sown fields thinning has been started. New loading platforms to handle the shipments of beets to the factory at Raymond will be constructed at Iron Springs, Picture Butte and Regal.

The geological survey party under the direction of Dr. Allan Cameron which will make a survey of mineral resources in the northern part of the province under the direction of the provincial government, left during the past week for their summer's work. The survey will be facilitated by the use of photographs of the area to be covered which were taken last year by Dominion government air photographers. In addition to the two soil survey parties which have already gone north, a third party in charge of J. L. Dougherty, has gone during the past week to the area east of Lesser Slave Lake where comprehensive investigations of soil types will be made.

St. Alhelm's Church will hold their usual services on Sunday, June 9th Sunday School, 10 a.m.; Holy Communion 11 a.m.; Evensong 7:30 p.m. Service at Union Jack at 3 p.m. The Choir will practice in St. Alhelm's Church, Friday at 7:15 p.m.

## IN AND AROUND THE CLUB

Well we have enough moisture now to last till the Stampede anyhow.

Sorry to have to record the fact that one of our old standbys, Johnnie (Wee) Brown, has gone to Calgary to help the C.P.R. get the Palliser finished for the Stampede. Good luck Johnnie.

The Sheriff of Snake Valley has been marooned in town since Saturday, meantime the keeping of law and order in that wild and woolly section of the country will have to look after itself.

So High River is flooded. We always knew they were damp over there, but now they are all wet.

Last week's wail. "Uncle forgot to write."

How do you like our mud? Kind of "slick" ain't it?

Saw some of the boys celebrating the King's birthday quite successfully.

The rain was the cause of postponing the football game with Union Jack last Friday. Good old rain.

We are putting on a two days' Carnival and Sports on June 21st and 22nd. Having a brand new midway too, where you can spend your money in great comfort. Last, but not least, we are putting on a kiddie's day on the Saturday. Oh well, the kids don't care about that anyway.

Keep these dates posted in your hat as we aim to put on a real time for everybody. See if we don't.

Saw S. and M. sympathizing with each other on the wheat and oil situation, but we think they are like Sitting Bull's daughter "Sitting Pretty."

Did you hear the one about Lindy? Oh well, what's the use, the boss would cut it out anyhow.

We were all primed to go to Blackie to the Legion Smoker last Friday, but the storm interfered, and another hope went glimmering.

Wonder if any of the boys will go fishing this year, and which of them will want to fish.

Our tame poet insists that this one should go in. Well don't blame me.

A mule has two legs on behind and two he has before. You stand behind before you find what the two behind be for.

JACKSON AT CALGARY

Speaking of Charlie Belangee, the light heavyweight champion of Canada, the Calgary Herald says: "Frankie Jackson, junior welterweight, who meets Bob Canuck in the first bout of the card Friday night, also went three rounds with Belangee. The Canadian champion sparred with Jackson and they set a lively clip while they were in the ring."

Mrs. O. B. Roe, of Vulcan, left on Sunday morning for Toronto to see her father, Mr. David Muckle, who was seriously ill. We regret to say that Mr. Muckle died on Sunday and we wish Mr. and Mrs. Roe and family to accept the deepest sympathy of their Vulcan friends.

United Church Notes

Rev. John Branton will conduct special services at Staveland on Sunday next. Mr. J. W. Hallett will take the regular services at Vulcan, morning and evening. Also Berry Water at 2 and Red Cross at 3:30 p.m. Every-body welcome.

## CANADIAN LEGION WILL SPONSOR A CARNIVAL

On Friday and Saturday, June 21st and 22nd, the Canadian Legion, B.E.S.L., Vulcan Branch, will put on a carnival which will be well worth your patronage. It is expected that there will be baseball, football, basketball, and other games and, as a special attraction, the United Canadian Shows have been booked. This latter organization comes with splendid recommendations and it must be understood that it is not the same aggregation that was recently in town.

The Legion is making every endeavor to put on a worth-while two-days of amusement, and full particulars will be found in these columns next week.

## WEDDING BELLS

A recent wedding at Culver City, California, will be of local interest as the bride is a niece of Mrs. Charles Ottowill of this town.

Following is an extract from a local newspaper:

A beautiful wedding of the May season was that of Miss Grace Julia Herman, attractive daughter of Mr. and Mrs. Fred J. Herman, of 4248 Jackson street, to John M. Kirste, of Los Angeles, the nuptials taking place on Saturday evening at 6 o'clock in the United Presbyterian church, the pastor, Reverend Archibald K. Stewart, officiating in the presence of a large gathering of relatives and friends of the couple.

The altar was banked with potted plants, greenery, roses and lilies forming a very pretty background for the wedding party. Ropes of honeysuckle intertwined with roses decorated the aisle for the bridal party.

The bride, who was given in marriage by her father, looked unusually charming in a gown of heavy ivory satin, made with a tight-fitting bodice, and full skirt, that was short in front and almost touching the floor in the back. The skirt was scalloped around the bottom and the only trimming was a bow of satin lined with shell pink satin that fell to the bottom of the gown at the side.

The bride veil was of white silk net and was caught to the head capsule with a band of orange blossoms. Her bride's shower bouquet was of Cecil Brunner roses and lilies of the valley.

The bride is one of the most popular and best liked girls of the city, and has a legion of friends here who are offering felicitations. The groom is a young business man of Los Angeles, where the couple will reside.

## LOCAL NEWS ITEMS

Miss Mildred Heckle, of Brant, was a town visitor on Saturday.

Mr. and Mrs. F. Wrench, of Nanton, spent a few days in Vulcan, last week.

Miss Rose Morset of Milo, spent a few days last week with Mrs. Bill Little.

Don't forget the football game at the sports ground on Friday, at 7 o'clock. Union Jack vs. Vulcan.

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visited the King Drug Store every second Saturday. Make appointments at Drug Store or with Drs. Carson & Burke.

The broad brims, the small Mohair hats the summer fashions, and a few of the new "Alice" and "Whisper" hats are all on display at the Vulcan Millinery. Please call and inspect. C. C. Packwood.

Mrs. A. T. Martin was an Edmonton visitor last week to attend the W.I. Convention, also to see her daughter, Miss Dorothy Martin, who is training in the University Hospital, Edmonton.

Fred Williams wishes to announce that he is now located at the residence of John Tuttle, south-east of the Vulcan High School, where a full supply of Kawleigh Products can be obtained.

Miss Jessie Grant, who has been in the service of Buck and Howson for the past several months, left the store on Friday and is spending a few days in Macleod and Calgary before she leaves for Portland, Ore., where she expects to spend the summer with her aunt.

Mrs. O. B. Roe, of Vulcan, left on Sunday morning for Toronto to see her father, Mr. David Muckle, who was seriously ill. We regret to say that Mr. Muckle died on Sunday and we wish Mr. and Mrs. Roe and family to accept the deepest sympathy of their Vulcan friends.

United Church Notes

Rev. John Branton will conduct special services at Staveland on Sunday next. Mr. J. W. Hallett will take the regular services at Vulcan, morning and evening. Also Berry Water at 2 and Red Cross at 3:30 p.m. Every-body welcome.

## ENCOURAGE THE BAND

Vulcan's fine musical organization is putting in hard work these days, practising for the competition at the Calgary Stampede, in which a success was scored last year. In addition to the practices, the local musicians are giving free concerts on every available occasion and are, in every way, rendering a real service to the community. Every citizen should boost for Vulcan Band.

## LOCAL YOUNG PEOPLE PRESENT FINE SHOW

On Monday and Tuesday evenings, the Vulcan Young People's Society presented, in the Vulcan Theatre, a comedy in three acts, entitled "The Burglary at Brown's."

The story is full of humorous situations, and the players took full advantage of every opportunity to portray the characters according to the intentions of the author.

The case of characters is printed below:

Dr. Curtis Brown, a young doctor, R. M. Featherston.

Constance Brown, his wife, Miss Letta Roe.

Oliver Brown, brother to Curtis, Harry Ferguson.

Mable Brown, Oliver's wife, Miss Isabelle Flood.

Bob Dryzell, a College Sheik, Norman Lockhart.

Kenneth Prince, Bob's accomplice, Clyde W. Clark.

Elouise Mitchell, a nurse, Miss Marion Hartford.

Florette, a French Maid, Miss Harriet Discher.

Officer Blake, Sam, Two Hardboiled Detectives, Herbert Linley and Harland Schenk.

Bad roads, as a consequence of the recent heavy rains, kept many away, but there is no doubt that the School Piano Fund will benefit considerably from the proceeds of a really excellent performance.

## LOCAL DELEGATES W. I. CONVENTION

Mrs. R. S. Parslow and Mrs. W. A. Schenck, Vulcan delegates to the recent convention of Women's Institutes at Edmonton and Mrs. A. Martin, constituency convener, who was also in attendance report a pleasant and profitable gathering. The following will indicate the wide range of the activities undertaken by this splendid organization.

Tuesday evening: Lecture on early days of the Klondyke by Rev. J. M. Comyn-Ching, Edmonton. This lecture was very much on the same lines as the picture shown here a short time ago, entitled "The Trail of Ninety-Eight."

Wednesday evening: An illustrated lecture on "Wild Flowers of Alberta," was given by Miss Sheila Marratt, of Edmonton.

Thursday morning: A lecture was given by Hon. George Howley, Minister of Health.

Thursday afternoon: A lecture was given by Hon. Perren Baker, on the new school act.

Thursday evening: A banquet was given by the University of Alberta, City of Edmonton and the Edmonton W.I. at 6 p.m. in the Athabasca Hall at the University. A dance was also given in the evening, the music being supplied by Graydon Tipps' Orchestra.

A lecture was given on Friday morning by Mr. H. L. Seymour, of Edmonton, on "Town Planning."

A beautiful leather travelling case and a sum of money was presented to Mrs. Wellington Huyck, this year completing her four-year term as President, by Mrs. A. T. Martin of this town.

The new officers were as follows: Mrs. Montgomery, of Drumheller, elected as new Provincial President; Mrs. Rodgers, of Fort Saskatchewan, Vice-President; Mrs. Beaubier, of Champion, Secretary.

The Constituency conveners are as follows: Mrs. Roberts, of Sexsmith, District No. 1; Mrs. Short, of Woodhead, Alta., District No. 2; Mrs. McIvor, of Stettler, District No. 3; Mrs. Aleck, of Champion, District No. 4.

The resolutions were as follows: That closed courts for trial of statutory offences when young girls are giving evidence, will be asked for by the Women's Institute.

That a woman judge conduct the said trial. (Carried).

Request to have rural high school for urban district. (Lost).

Ask Government for \$300,000 for fund to educate youths along temperance lines, whereas the Government made a profit of \$2,300,000 on liquor sales last year. (Carried).

That the day after Christmas be made a public holiday to give tired trades people a chance to rest and that Good Will day be observed in the schools. (Carried).

Members felt that the young boys who wish to farm but are unable to on account of financing same, should be helped as well as the British boys (Carried).

## ODDFELLOWS, REBEKAHS MEMORIAL SERVICE

On Sunday, June 16th, Vulcan Oddfellows and Rebekahs will observe the annual memorial day. Members of both orders will meet in the L.O.O.F. Hall (where visiting brothers and sisters are cordially invited to join them) and will proceed to the rink, where divine service will be conducted by Rev. J. N. Branton and D. F. Kemp. The general public is invited to attend, and fuller particulars will be given next week in these columns.

Mr. T. Finlay, who has been a valued member of the Vulcan Band for some time, left on Saturday for Lethbridge, where he has secured a position. Tom regrets to leave Vulcan, but could not find suitable employment here.

## BRITISH ELECTION

The British election results have proved that economic discontent has been widespread. The leaders of all parties, Baldwin, MacDonald and Lloyd George were re-elected with tremendous majorities.

Ramsay MacDonald as head of the Labor party leads the largest single group with 285 seats. The Conservatives number 236 and the Liberals 18.

Apparently the new women voters must have been a strong deciding factor in the Labor victory. This victory is all the more noteworthy as an evidence of the temper of the people, from the fact that the Laborites were opposed by most of the newspapers and had no large campaign funds to draw from.

Lloyd George's one great comfort may be that his group holds the balance of power. With his 18 Liberals he can embarrass the control of the Labor government, or strengthen it.

Baldwin's slogan of "safety first," while a good old watchword in its day apparently carried no satisfactory message to the great mass of voters.

Mr. Baldwin's son Oliver, and Lloyd George's daughter Megan, were also elected to seats. Megan Lloyd George is a Liberal, and Oliver Baldwin, a Laborite.

Mr. White, of town, is spending a few weeks in Bethany visiting his son.

Mr. Clyde Clarke, of the Bank of Montreal, spent the week-end in Calgary, visiting his relations Dr. and Mrs. Church.

Last week end Mr. and Mrs. Z. C. Deal had guests from Calgary, his brother, C. R. Deal and family, other friends, and Mr. H. E. Hargreaves, Calgary's postmaster. They expressed very pleasant opinion of our prosperous town and district.

## LOCAL NEWS ITEMS

Miss Vic Walcott, chief of the government telephone staff, left on Friday night for Wetaskiwin, where she will spend part of her holidays.

Born in Vulcan, on Thursday, May 30th, to Mr. and Mrs. J. B. Morley, a daughter.

Mrs. Schenck and Mrs. Parslow represented the Vulcan Women's Institute in Edmonton last week.

Mr. Norman McLean, of Calgary, is spending a time with his father, Mr. E. G. McLean, of the Pool Elevator.

Miss Bessie Reynolds left on Tuesday morning for Calgary, where she expects to take a beauty course from Miss Olive Middleton, of Calgary.

Mr. A. B. Bond, of Calgary, motorist to Vulcan on Saturday evening and expects to spend a few days here. Mr. Bond is an expert piano tuner.

Mr. Frankie Jackson, prominent Vulcan boxer, left for Calgary on Wednesday night, where he expects to box in the match to be held in Calgary on June 7th.

Any one interested in children's cheap school and play hats, is invited to look over the \$1.00 and 50c boxes. The ladies are invited to look over the table of \$2.00 and \$3.00 hats. C. C. Packwood.

Mr. Ash, of the Chautauqua, arrived in Vulcan on Monday night. He was en route to Milo for a four day Chautauqua, but owing to the condition of the roads was unable to leave until Tuesday afternoon.

Mr. and Mrs. L. H. Wright and family and Mr. and Mrs. Mabey, who spent the 21st and week-end in Banff, report a very enjoyable holiday.

Misses Wright and Mabey returned home on Sunday night by car while Mrs. Wright and Mrs. Mabey remained in Banff till Wednesday.

## CHURCH OF CHRIST NOTES

Services as usual at the Church of Christ on June 9. Children's day will be observed at 1:30, weather conditions caused its postponement last Sunday. Christian Endeavor at 7:15, and evangelistic services at 8 o'clock. Everyone is cordially invited to attend these services.

Rev. J. W. Jenkins will conduct the evening service.

## Vulcan School District, No. 1902

### Notice to Ratepayers

NOTICE is hereby given that a poll of the ratepayers of the Vulcan School District, No. 1902, will be held in Vulcan, at the Municipal Office, from 10 o'clock in the forenoon until 7 o'clock in the afternoon on Monday, June 24th, 1929, for the purpose of ratifying or rejecting a by-law empowering the Board of Trustees of the said district to issue debentures in the sum of \$30,000.00 repayable in 30 equal annual instalments with interest at not more than 8 per cent. for the purpose of building and equipping a solid brick addition consisting of six rooms to be connected to and forming a part of the present school.

NOTICE is further given that a vote of the ratepayers will be taken at the said poll to ratify or reject the teaching of grade twelve in the said school. By Order of the Board.

A. J. FLOOD, Returning Officer.

### VULCAN ADVOCATE

VULCAN, ALBERTA  
CHARLES CLARK, Proprietor  
TOM WHITTINGHAM  
Editor and Manager

### THE KING'S BIRTHDAY

On Monday, June 3, King George V saw the sixty-fourth anniversary of his birthday. The fact that he was suffering from illness on his birthday occasioned much concern amongst the people of the Empire. The day was marked with prayers for his recovery, rather than with celebration, and latest reports indicate that he is on the way to restoration of health. The fact that he has but recently recovered from grave illness, leaves the country apprehensive over the slightest disposition. It is not every British King who could be considered a popular monarch, but no evidence is lacking to prove King George's title as "well-beloved monarch." From all quarters of the world come evidences of the affection in which he is held by rich and poor. And the hearty wish from every heart is "God Save the King for many another birthday."

### SALESMANSHIP

Two commercial travellers were bragging about the wonderful sales they had made that day. One had sold \$2,000 worth of goods. The other said "I did better than that. I took in thirty-five hundred dollars." A Jew sitting in the next seat looked at them with a big smile and said, "My friends, you mean you took orders for that much and that's not salesmanship. I'll tell you what salesmanship is: This morning a lady came to my store and said she wanted a suit of clothes to bury her husband who had just died. Well, my dear lady, surely you are not going to bury your good husband in a twenty dollar suit" said I. "Come with me and I'll show you some good clothes." I took her to our high-class goods, and before she left I had sold her a \$75.00 suit with two pair of pants. That's salesmanship."

Three southern Albertans have been effited by the decision of parliament to pay German reparations awards in full. Mrs. Hilda Bedwell, Lethbridge, receives \$3000. She was injured in a German war raid on London in 1917, and has suffered from shell shock. Mrs. Doyle of Cowley gets \$4,190 for the loss of her husband during the war. He was on a merchant vessel between Dublin, England, when it was submerged. Joseph Boyle, Bellevue gets \$1200.

### CRUEL FASHIONS

The establishment of farms for fur bearing animals, removes the horrors of the cruel steel trap as a method of securing furs for beautiful ladies. However, the steel traps are still being used, and the New Outlook has this to say:

"It is said that one hundred thousand skins are sold yearly on the markets of North America, and the annual turnover of the fur business in the United States alone is four hundred million dollars. Stark horror lurks behind those figures. Millions of dumb creatures are tortured to death because fashion insists that women shall wear furs. Fashion, not nature, or necessity, made the decree whereby millions of creatures with flesh and blood and senses like ourselves must suffer long-drawn-out agonies of fear and pain and die in unpeakable misery."

"A picture lies before us which for sheer callousness and cold-blooded brutality surpasses even the horrors of the Inquisition. It is an illustration from a trapper's catalog showing the working of a fiendish instrument: 'See how the flesh of the trapped leg swells into the noose between the two jaw faces, effecting a positive and escape-proof hold.' In the old days the poor thing had a chance of freedom by chewing its foot off, but not now! Look at this: 'Impossible to pull free even though the foot be chewed off—not a chance to escape.' 'If we saw the trapped animals, or thought the matter through, how many would be content to go on wearing furs procured by such cruel, inhuman, and cowardly devices? An Anti-Steel Trap League formed in Washington, D.C., in 1925 is seeking to have laws passed which will forbid the use of any trap that does not kill instantly or take the animal alive and unharmed. The league has the declared support of the General Federation of Women's Clubs. It must surely have the support of the Christian Churches in seeking to drive out of existence an instrument that is a blot upon our civilization."

### REDUCTION OF DEBT

Different organizations of the town that last winter, enjoyed discussions on the advisability of wiping out Canada's national debt with all speed possible, will be interested in the opinion on the question of H. B. Spaulding, who writes in Willson's Monthly. Mr. Spaulding quotes figures to show that if Canada reduces her national debt at the rate maintained in the last four years, she will in 24 years have no national debt. This, however, Mr. Spaulding says, does not constitute real progress. We could make much better use of the money at the present time, and the coming generation, though probably much richer, will have nothing to pay.

Mr. Spaulding claims that we are differently situated from most of the nations struggling to pay their national debt. We have enormous resources capable of supporting a population many times the present one. We have tremendous resources waiting development. We have recovered from post war depression and national wealth is increasing rapidly. In so far as the future may be predicted, at all, it is likely that our national wealth will continue to increase enormously. This then is a good reason for a less rapid reduction of public debt. At present, we could use funds much more wisely for development of resources and industries. The less money paid as taxes, the more Canadian capital remains free for investment.

Hon. Jas. Robb takes a different view. He believes that, while Canada is prospering and Government revenues are buoyant, is the time for reducing national indebtedness. This also reduces the amount of yearly interest to be paid, which is important. Many citizens are of the opinion that Hon. James Robb has been most masterly in his handling of finances. Wise taxation and careful spending have made it possible to cut millions from the debt and at the same time to lighten steadily the burden of taxation on the people.

The origin of baseball is as follows—The Devil was the first coacher, he coached Eve to take first. Adam stole second. When Isaac met Rebecca at the well, she was walking with the pitcher. Samuel struck out many times when he beat the Phillistines. Cain made a base hit when he killed Abel. Abraham made a home run. Moses shut out the Egyptians at the Red Sea. The game was called when the flood came, on account of wet grounds and Noah had all the rain checks.

Occasionally it happens that someone gets mail from the post office belonging to someone else which has inadvertently been put into the wrong box. In a bulletin issued by the Post-Office Department, passing along information and announcement, we note that a man at Holland Landing, Ont., was sentenced to sixty days imprisonment for wilfully keeping a post letter which was not his property. In future if you should get a letter in your mail to which you are not entitled, see that it is returned to the post office at once.—Kincaid News.

### ATTRACTIVE CARAVAN

A most attractive caravan by which has been commencing on by various towns in its progress from Vancouver, is that of Mr. and Mrs. C. A. Linsley of Vancouver, who are on their way to Winnipeg. The caravan is trailed behind their touring car, and is equipped with electric light, davenport, table, chairs, cupboard, gasoline stove, sink—even pictures painted on the coil lapable walls. They have travelled the length of North America through the years, equipped with their home on wheels. Mr. Linsley is traveller for the Lise Company distributors of valve facing machines and in his opinion, many of the problems of modern living are solved by the free life of the open road.

### "C. F. A. G. SPEAKING"

The radio announcers are the next the successful operation of radio, and to fall under the axe. People have grown accustomed to the wonders of have grown critical. They have decided that many of the radio announcers are in line for cultural operation. It is not sufficient that they can put over the news. They must make their announcements of stock exchange reports, boxing matches, etc. in cultured tones, with due care given to pronunciation and articulation. It is prophesied that there will be a weeding out, equalled only by the general clean-up in moviedom resulting from the talkies.

The president of the Glacier Park Company, Howard Hays, predicts a greatly increased flood of tourists through Southern Alberta this year. The improved roads connecting northern Alberta with the boundary, will leave a splendid impression on the motorists and the word will be passed along. Many are eager to take the northern trip, delaying only till assured of good gravel roads.

A new method of teaching citizenship was adopted in the senior public school grades of Macleod. A class of 25 girls and 14 boys were taken to the court house to the session of District Court, in order to have a practical demonstration of Court Procedure.

Ramsay McDonald said the Liberals are "a fund rather than a party." After the elections Lloyd George will have to do some refunding.

Another way is to decide what tip you are going to give the waiter and then order your meal accordingly.

## OIL NEWS

Regent Oils No. 1 is still a good producer and No. 2 well is being drilled and No. 3 will also be started in the near future. Regent has a very good location being near Okalta.

Oil stocks tumbled the past week, serious losses being made by A. P. Con., Spooner and others. Highwood Preferred dropped to \$12 and on Tuesday raised to \$13.50.

Edmonton is going to have an oil exchange. The exchange will have 30 seats to start with, but may be increased as the exchange develops its volume of business.

Lowery Petroleum will soon be in operation. They have a contract with Imperial Oil relative to the development of the property. An order has been placed for a complete new heavy rotary drilling rig and the equipment is now in transit to the site. The drilling rig is of the latest and most efficient type and drilling will commence about the first of June.

Gordon Campbell, discoverer of the Kevin-Sunburst field in Montana, is now operating in Alberta and the Aldersyde structure has been named for him. Gordon Campbell always thought a lot of the geology of Alberta and he is optimistic as to the future of Twin Dome and Ranchman's oil wells. The testing of the Aldersyde structure is awaited with keen interest.

Lloyd's Petroleum, a Vancouver and Winnipeg financial concern are planning to sink ten wells in the Wainwright district. The work on the Fabian property is to be speeded up.

Angus Oils will spud in its first well on the new Black Diamond structure this week. Outwest Petroleum Ltd., spudded in its first well Tuesday. Sentinel Oils Ltd., is now 4650 feet deep with 10 inch casing and is ready to run 8 inch casing.

Freehold No. 1 struck a gas flow estimated at 2,000,000 feet on Sunday at depth of 2450 feet. Drilling was called off for a time. Freehold No. 2 will start drilling next week.

Hargal Oils is trying to secure additional acreage adjoining the Imperial Highwood structure offsetting Home acreage.

A start has been made in deepening the McDougall Segur well No. 2, in an effort to increase the 85 barrels a day production. The field supervisor has arrived from California and will be in charge of drilling operations. Mr. Dougall Segur No. 2 struck production at 5358 feet. McDougall Segur No. 1 which is producing 10 barrels naphtha daily at 3257 ft. will be deepened as soon as No. 2 is completed.

## EDITORIAL COMMENTS

Marion Talley has quit grand opera to go farming. Isn't that grand opera for money?

Speech began with gesture, says a philologist and with some races it keeps up the pace fairly well.

Lloyd George denies that he promised to cure unemployment. Says he promised only to bring it down to normal. But isn't unemployment all the worse when it is normal?

Constructive criticism is the kind that comes from a friend. Criticism from an opponent is always called destructive.

Any message sent out from Moscow may be taken as Red.

Nature's laws are reasonable. Any time you violate one of them you suffer for it.

How do they get all those new names for all those new shades of color in all those new fabrics worn by the new woman?

Alas, they had been friends in youth, but Churchill now calls Lloyd George a quack and a charlatan.

A political party in one of our provinces is looking for an organizer. An organizer, by the way, is a salaried official who goes about telling the faithful that they have to organize if they would succeed.

President Hoover is certain now that success is the road that leads to Difficulty, except for a detour at Popularity.

"Funny thing," said a High River man the other day, "but I knew a fellow who was of Scotch descent and yet he hated like anything to lose money playing poker."

Chicago man says he "lived there fifty years and never saw a shooting." That's nothing. There's an old man who lived in London all his life and never saw the Abbey.

Hon. Stanley Baldwin offered to allow Sir John Simon to go without opposition from the Conservatives in Spen Valley and Sir John responded by making an attack upon the government. Hon. Winston Churchill charged him with firing under a white flag. Since then, Sir John saw fit to defend the government against a charge made by his Labor opponent. This may or may not be a symptom of belated gratitude. It may be a lively sense of the fact that there are Conservative electors in Spen Valley.

A recent bulletin of the U.S. Department of Agriculture says "It was found in Texas that every day spent by a child in school might be considered worth nine dollars." We hate to mention this for fear that school children may object to the summer vacation, because of the money loss which it involves.

## ADOPT SANE POLICY

"We face a serious problem with our neighbors. We are not looking for a fight, but we certainly will not run away from it," Hon. Lucien Cannon, solicitor-general, declared when discussing the recent United States tariff changes before a Liberal meeting at Windsor.

"We will see to it that Canada is amply protected," Mr. Cannon added, after asserting that the Liberal government had "never shirked its responsibilities."

"At present the United States and Britain are not as good friends as they might be. Canada must play between these great nations the part of a liaison because at the Geneva conference Canada, it may be truly said, represented the American opinion."

He added that Canada's part should also include the drawing closer together of France with Great Britain and the United States.

Another speaker said Canada must adopt a cool, but hard headed policy with respect to its tariff dealings with the United States.

## FARMING AS IS

In winter I get up at night

To give the kine and nags a bite,

In springtime it is far worse still,

I'm hardly ever off the drill.

Too soon comes hay and summerfallow

I'm always out before the swallow.

So in the fall it's worst of all

I seldom see my bed at all.

—Country Guide Poems.

## FISH FACTS

An ell has two hearts,  
one of which beats about  
60 times a minute, the  
other about 140 times a  
minute.

Crab and eels can live  
longer out of water than  
any other fish. Herring  
are the quickest to die  
when out of water.

The whale is the swift-  
est fish although the sal-  
mon is a fast swimmer.  
A strong salmon can  
cover about 25 miles an  
hour.

Most of the so-called  
"cod-liver oil" comes from  
a shark, but it possesses  
the same medicinal value.

"My old plow used to  
run out (or dig in) when  
it hit hard going," says  
Donald Smith. "I got sick  
and tired of trying to  
muster the thing so I  
bought a new McCormick  
Deering No. 8 Little Gen-  
ius. It can't be beat for  
breaking sod or plowing  
stubble."

We have had a wonder-  
ful rain—just what the  
crop needed. But if the  
rain came thru your roof  
a little of our roof dope  
will fix it in a jiffy.

Blue is the only color  
we can feel.

## A SNAP

A 15 30 McCormick  
Deering 1928 Tractor, in  
dandy shape. For sale on  
easy terms. Also a John  
Deere Tractor Plow, four  
stubble bottoms, almost  
new.

**SADDER BUT WISER**  
A kindly old man was  
McBride.

He once gave a hiker a  
ride.

Now poor and sad  
This wiser Irish lad

See the new McCormick  
Deering 22-36 Tractor. If  
you would like to know  
how easy it will pull a  
four bottom plow ask Mr.  
Jim Jamieson. We tried  
one out on his farm last  
week.

**Good Equipment Makes a**

**Good Farmer Better.**

## STOCK ALTA LAKES

Arrangements will be made this  
season to stock Cheatem Lake,  
east of Calgary, and McAllister Lake  
near Strathmore, with perch, it is an-  
nounced by R. T. Rodd, Dominion  
Fisheries superintendent for Alberta.  
It is probable that these fish will also  
be introduced into Gull Lake and  
Clark's Lake in the Lacombe district,  
the Chain Lakes near Ponoka and in  
other lakes in the locality of Hardisty.  
Mr. Rodd reports that some 50-  
000,000 pickerel have been hatched in  
the Lesser Slave Lake hatchery. Most  
of these will be placed in Lesser Slave  
Lake but stocking will also be carried  
on in a number of other lakes in the  
province.

## TOWN FACTORIES

The establishment at Red Deer of a  
branch factory of the Eddy Match  
Company, is of interest to all other  
small towns.

The large industrial plants are get-  
ting away from the centralization  
policy and are establishing branch  
factories throughout Canada to serve  
different portions of the Dominion.

The old policy of establishing fac-  
tories in cities exclusively is undergo-  
ing a change. Everyone realizes the  
sudden growth of many a sleepy On-  
tario town, through the securing of a  
few industrial plants.

In these days the average small Al-  
berta town has as many advantages to  
offer as the cities in the way of cheap  
power, and light, natural gas, and  
shipping facilities. Added to this is  
lesser taxation, and a smaller original  
investment, for land.

With the evident disposition on the  
part of large factory concerns to pass  
up the crowded cities, in favor of the  
small towns, there is a likely chance  
for any well situated live small town  
to acquire some industrial activity  
which will add to its population and  
its progress.

## JAIL BREAKERS

Five prisoners escaped from the  
Lethbridge jail on Friday night. It  
is the biggest jail break in Lethbridge  
history. All five men were sent down  
from Calgary. All five are serving  
terms for one year or over for rob-  
bery or forgery. They escaped  
through the roof of the dormitory,  
letting themselves down by strips  
made from blankets. The drop from  
the roof is fully fifty feet.

An old truck was stolen from a  
farm five miles south of the jail and  
it is supposed that the fugitives went  
south in it. They are now in all like-  
hood well into U.S.

The night chosen was well suited to  
a complete getaway, being dark and  
stormy. Owing to the overcrowded  
jail, the men had been sleeping in the  
upper corridors, and it was often  
lights out on Friday night that they  
tore up the blankets. The swing over  
the roof of the dormitory into fifty  
feet of space took considerable nerve.

Apparently they discarded the truck  
at Raymond and took in its place a  
Chevrolet sedan.

The jail break was first noticed  
shortly after 3 a.m., when the outside  
guard found the blanket rope. Im-  
mediately police officers were on the  
trail, but it is supposed they were over  
the border by daylight.

## YOUTH ON THE FARM

The days of all-year-round farm  
drudgery appear to be gone forever.  
In fact, the whole modern tendency  
is toward making the life attractive.  
Special attention is given to satisfy-  
ing and directing the desire for var-  
iety amongst youthful agrarians. Ag-  
ricultural training schools flourish.  
Conventions in which the young peo-  
ple are encouraged to take part, oc-  
cur with frequency. Gatherings such  
as University Week and the Institute  
of Co-operation break the round of  
the seasons.

The parental attitude on the farms  
has greatly changed. In days, not so  
long ago, if a farmer's son expressed  
desire for education, beyond public  
school, it was taken as a direct revolt  
against the old homestead. The far-  
mer, if he were lenient, sighed, head-  
ed the boy off on some professional  
track and thrust another son, perhaps  
quite as brilliant, but less demanding,  
behind the plow. If he were not len-  
ient, the ambitious son, was forced ei-  
ther to remain at home or to go out  
and rustle to achieve his education.

Nowadays farmers sons are guided  
with light rein. Their desire for edu-  
cation is not regarded as any chal-  
lenge to their return to the soil. They  
are given all they want of secondary  
training. They take scientific agri-  
cultural courses. The whole modern  
tendency is to dignify the pursuit of  
agriculture. An extensive general  
education is regarded as another as-  
set, rather than a hindrance.

In consequence the newer genera-  
tion of farmers carry with them a  
great element of freedom. They have  
made deliberate choice of occupation,  
are as well-equipped, educationally,  
as any business man. Their calling is  
one of the most independent on earth,  
as well as being one of the most use-  
ful and wholesome. They are the  
lords of the soil.

A traffic light  
Means "stop" when read—  
But lips that are  
Mean "Go ahead."

## CALGARY FLOOD

Tremendous damage has been done  
to property in Elbow Park. The C.N.  
R. freight yard line is washed out.  
Bowness Park and St. George's Is-  
land were completely under water,  
with great damage to amusement pa-  
villions.

Twenty-fifth Avenue bridge was  
washed out carrying a big gas main.  
Construction bridge at Ghost River,  
was washed out and damage done to  
homes. Sunshine Auto Camp was un-  
der six feet of water. The entire  
Mission district, Roxboro and portions  
of Rideau, Sunnyside, Riverdale and  
Westmount were under water, with  
all cellars flooded in districts near the  
river.

The zoological gardens at St.  
George's Island suffered severely.  
Rare birds which were released, are  
doubtless lost forever. Many of the  
pens were completely flooded and the  
animals drowned. The bears were not  
released but it is hoped that they may  
be able to cling to the tops of the ca-  
ges.

## MILK RIVER OILS LTD.

Intensive development of the Beaver  
Dome, in the Sweetgrass Hills area  
of Southern Alberta is promised by  
Milk River Oils Limited, a new incor-  
poration owning 1271 acres of leases  
all carefully selected on the Dome.  
The present drilling program of this  
company calls for a series of ten wells  
which will thoroughly test their hold-  
ings. Drilling in this area is compar-  
atively easy and rapid. There are six  
possible producing sands before the  
time is reached. These sands are en-  
countered at approximately 575 feet,  
580 feet, 1450 feet, 1850 feet, 2350  
feet and 2700 feet and the time at  
3000 feet. The Madison now drilling  
on adjoining acreage report an esti-  
mated flow of from 5,000,000 to 6,000  
000 cubic feet of gas at around 750  
feet. The log of the Beaver well-drilled  
in 1914 shows all these sands as  
producing both gas and oil. The  
Beaver Company, claimed to have en-  
countered 20,000,000 cubic feet of wet  
gas at 1850 feet which after ten tests  
was shown to contain 4 pints of naptha  
per 1000 cubic feet of gas, that is  
286 barrels of naptha per day. This  
well reached the time at 3050 feet,  
where drilling was abandoned owing  
to financial difficulties during the war.  
Another commercial producer on the  
same structure is the Rogers Imper-  
ial, a well with a production of 60-  
000,000 cubic feet of gas per day un-  
der control. A pipe line is now being  
constructed to take this gas to Great  
Falls and other Montana towns. Maj-  
or G. G. Howard, chief geologist for  
the Sunburst Oil & Refining Company  
states that the Sweetgrass Hills com-  
prise an area of 3700 square miles  
about equally divided between Alberta  
and Montana. He goes on to say:

"No wells have been drilled in the area  
on even fairly favorable structure  
without encountering gas in commercial  
quantities." In the Montana Oil  
Journal of May 26th, 1928, Major  
Howard states there is an available  
gas supply on the Montana side of  
one trillion three hundred and twenty  
five billion cubic feet of gas with only  
partial development. It is, therefore,  
obvious that drilling on the Alberta  
side must produce tremendous re-  
serves of gas which will in itself be a  
source of untold wealth apart from  
the value of the naptha and crude oil.  
Mr. W. S. Herron, millionaire oil op-  
erator of Calgary has recently an-  
nounced a \$50,000,000 project for pip-  
ing Alberta gas to Winnipeg, Saskat-  
oon, Regina, Moose Jaw and other cities  
and towns in Western Canada. The  
property of Milk River Oils Limited,  
is easy of access, being approxi-  
mately 24 miles from the Canadian  
Pacific Railway at Coutts and 24 miles  
from the Canadian Pacific Railway at  
Foremost, with good roads from the  
railway. The Canadian Western Nat-  
ional Gas Company's main pipe line is  
only 24 miles distant and the pipe line  
to the Montana cities is within 6  
miles. Canada imports about 90 per  
cent of her petroleum products, there  
is, therefore, a ready market for  
crude oil and naptha. It would ap-  
pear there is also a ready market  
available for tremendous quantities of  
natural gas for both domestic and in-  
dustrial purposes. The directors of  
Milk River Oils Limited are all men  
who have been successful in their  
own business. They are all men of  
the highest integrity, who have the  
confidence of the people in their own  
districts.

"The accident happened," said the  
defendant, "just after my wife fell  
asleep in the back seat."

As we understand it, the railways  
have to build more hotels that don't  
pay, for the purpose of increasing  
passenger traffic that doesn't pay  
either.

The Blackie annual sports day and  
ball tournament will be held on Thurs-  
day, July 4. The community club  
have lined up a large variety of  
events. This day promises to be one  
of the best ever held in Blackie.

The officers of the Alberta Women's  
Institutes elected at the close of the  
close of the convention held at Edmon-  
ton during the past week are as fol-  
lows: Provincial President, Mrs. H. J.  
Montgomery, Wetaskiwin; Vice Pres-  
ident, Mrs. A. H. Rogers, Fort Sas-  
katchewan; Secretary Treasurer, Mrs.  
J. N. Beaubier, Champion; Provincial  
District Directors, Mrs. W. R. Rob-  
erts, Sexsmith; Mrs. W. C. Short,  
Woodbend; Mrs. J. P. Ferguson, Tro-  
chu; Mrs. A. C. Alcock, Champion.

## WEED DESTROYERS

It has come to the attention of the  
Department of Agriculture that cer-  
tain persons have been recommending  
to farmers a chemical preparation for  
the destruction of noxious weeds, and  
in published statements testifying to  
the value of this preparation have  
represented themselves as being con-  
nected at the time with the depart-  
ment.

This creates an impression which  
should be corrected, and it may be  
pointed out that the department ac-  
cepts no responsibility for statements  
of this kind from unauthorized sources.  
Experiments have been carried out  
by the Field Crops branch of the  
department during the past year to  
determine the efficiency of the various  
chemical weed destroyers which are  
now on the market, and further inten-  
sive tests will be conducted this year  
under the direct supervision of the  
Field Crops commissioner. At the  
conclusion of these experiments an  
official statement of the results will  
be issued, and until that time no re-  
ports as to the findings of the depart-  
ment in this connection can be con-  
sidered as authoritative.

## REMARKABLE TRAIN

The first Trans-Canada train of the  
present seasons passed through Cal-  
gary recently. The keen competition  
between Canadian and American  
transcontinental railways for cross-  
continent passenger traffic has led to  
record expenditures in fitting out  
coaches which are the last word in  
comfort and convenience. The equip-  
ment of a 1929 Trans-Canada flyer  
typifies in its improvement over  
trains of even a decade ago the re-  
markable development of the domi-  
nion in the same period.

The present premier train of the  
Canadian Pacific Railway costs in the  
neighborhood of one million dollars  
to put on the track. There are twenty-  
four men employed on each train.  
Their wages alone amount to \$2000  
per day. Ten of these trains are in  
motion between Montreal and Van-  
couver at the same time, half moving  
east and half headed west. The chief  
new feature of these traveling hotels  
is the solarium car equipped to permit  
the entrance of ultra-violet rays, on  
which medical science sets such store  
in this year of grace. Other new fea-  
tures are bathrooms, card-rooms and  
ladies' smoking rooms.

The enterprise indicated in the pro-  
vision of these improvements serves  
to explain the steady growth in pas-  
senger traffic both on land and sea  
enjoyed by the Canadian Pacific Rail-  
way. And, it may be added, neither  
this system nor the Canadian Nation-  
al have much to learn from outside  
sources either in regard to equipment  
or service to the public.

## DARE WE DISARM

In connection with the many sided  
questions of disarmament amongst  
nations, the Lethbridge Herald gives  
this comment:

While serving as an illustration,  
the situation of Canada and the United  
States is, however, hardly satisfy-  
ing, excepting to show what is the re-  
sult where there is a feeling of secu-  
rity and no misgivings. Put it in an-  
other way, supposing that Canada  
was an independent country with no  
connection with Britain and the Em-  
pire? Would there be the feeling of  
security it enjoys at present? Does  
not the security of Canada rest on the  
power of Great Britain, and does not  
the relations between Great Britain  
and the United States, with neither  
having any misgivings of one another  
also serve as an explanation for an  
unprotected frontier? One cannot  
disabuse oneself of this fact. Happi-  
ly, there are no international suspi-  
cions between the British Empire of  
which Canada is a part, and the United  
States. But can this be said of  
other nations, say of France and  
Italy? Can that feeling of security  
as between the British Empire and  
the United States be brought about  
between these two countries and others  
we can name? Or again, if Great  
Britain and the United States are to  
be the arbiters of peace and war, can  
either of them afford to disarm with-  
out other countries doing so? No one  
can deny that for either country to do  
so would be foolish and it would be  
disastrous to both in the present psy-  
chology of the nations of the world.  
It is all very well to urge that a coun-  
try desirous of peace should set the  
example in disarmament. But is this  
possible unless it is seen that other  
countries will follow this example or  
can it be certain that another coun-  
try will not take advantage of this  
disarmament? Two powerful coun-  
tries like Great Britain and the United  
States can set themselves to form  
what is an international police  
safeguard the peace of the world. But  
this does not mean disarmament.

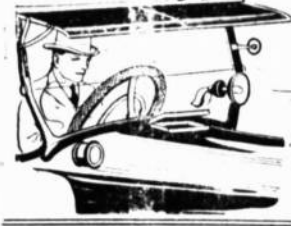

The Time may come, let us hope,  
when security among the nations will  
be established. But human nature  
will have to change greatly from  
what it has been since the world was  
created.

## HIGHWAY OPEN FOR SEASON

Of interest to large numbers of  
tourists is the announcement by J. J.  
Webster, secretary of the Alberta Mo-  
tor Association, that the Lake Louise  
highway and the Banff-Windermere  
highway have been opened during the  
past week for the season's traffic.

## "LITTLE HELPS"

## The Mail Order Menace

It is fully admitted by many business men in towns  
and villages, that if mail orders encroach as per-  
sistently during the next few years as present ac-  
tivities, and their increased advertising coverage in  
these districts indicate, a new system of merchandis-  
ing will have been evolved in suburban communities.

Under present conditions the merchandiser in the  
community centres is faced with the problem of ex-  
tending credit to his community for various amounts  
invariably large, for indefinite periods, while the cash  
sales, and cash which should be clearing off his book  
accounts, drift cityward via the mail order. For  
many reasons such a condition cannot long exist.  
The business man operating on the credit plan will  
eventually, be compelled to abolish credit entirely,  
and with this abandonment removed enter competi-  
tion in the "sell for cash" market, where he has at  
least an even break with all competitors in getting  
the cash with the sale.

Total elimination of the credit system in any  
community would mean hardship for a time, but as  
mutual trust and loyal support are essential to the  
credit system, the spending of money to any extent,  
out of the community is bound to tend towards its  
destruction.

The privilege of spending a dollar where its pur-  
chasing power is greatest, even if such saving is only  
in the mind of the spender, is a right which cannot  
be denied anyone.

While a local purveyor of some commodity be-  
comes the broad "buying out of town" has  
made in receipts, he will yet place an order with an  
out-of-town supplier for an article which he could  
procure right at home. True, he possibly saves 10  
cents on his dollar, but so do his customers who buy  
out of town, and so the cycle of out-of-town buying  
goes on towards completion.

None of us are free from its effects. Twelve sel-  
ectors from city printers canvass the town of Vulcan  
regularly in addition to clothing and grocery travel-  
ers, who carry printing as a side line, and appar-  
ently they all get business. And this is true in spite of  
the fact that a phone call will bring a representative  
from the local printer, with suggestions and estimates  
stock, type and ink samples and layouts if desired.

THINK OF THE ADVOCATE THE NEXT TIME  
A SOLICITOR SAYS PRINTING.

## "The More We Are Together The Merrier We'll Be"

THUS goes the jolly song of the Good Fellowship Bro-  
therhood. Plain simple folksy words, but much  
truth is embodied in them. Unless we hang to-  
gether much community prosperity is lost to Vulcan. Con-  
sider the printer; he is doing his part in helping along his  
home town by buying as much as possible there; yet much  
of the work he can handle goes outside.

No benefit is derived from giving work to outside  
firms who come around selling you printing. You pay as  
much for the work; you have to wait longer for it, you  
have no chance to examine it until the finished work  
comes along with the bill; and then there is the ex-  
pressage to pay over and above the straight price.

Compare this with the service of the local printer.  
Show him what you want and he'll give you a definite  
price. You know exactly what the work will cost before  
it is touched. Then you can make minor changes, etc.,  
before the final printing. Delivery is made promptly, too  
—and nothing is charged for the service.

All in all you stand to gain by letting the local man  
handle your work. And do not forget that his active sup-  
port is bound up and your business.

"For your friends are my friends  
And my friends are your friends  
The more we are together, the  
merrier we'll be."

### INTERESTING NEWS

The decision to increase the capacity of the Alberta Wheat Pool Elevator No. 1 at Vancouver by 2,750,000 bushels giving it a total capacity of 5,250,000 bushels, is announced from the head office of the Wheat Pool in Calgary. This addition will make the Pool elevator the largest terminal on the Pacific Coast. The pool has two other terminals under lease at the Coast, one at Vancouver and the other at Prince Rupert and with the completion of the new building, will have a total terminal storage capacity of 8,150,000 bushels in these two ports.

Judging from the number of inquiries already received by the committees in charge of arrangements, a large attendance of farmers and others interested in crop marketing problems is promised for the Alberta Institutes of Co-operation to be held at Lethbridge, Olds and Vermilion during the week of June 24th. Arrangements for the programs at the three points have been practically completed and the calibre of the speakers secured leaves no doubt as to the success of the meetings. Arrangements at each of the three points are in charge of an enthusiastic local committee and those who plan to attend either the adult or Junior sections of the Institutes should communicate at early date with the registrar of the Institutes they will attend.

The travelling clinic under the direction of the Alberta Department of Health which has rendered splendid service in many outlying sections of the province during the past two years has started on its itinerary for the 1929 season during the past week. Some thirty-four centres will be visited and the doctors, dentists and nurses in attendance will follow up the work which has been done in advance by the inspection staff of public health nurses through rural schools. The clinic will again be in charge of Dr. R. T. Washburn, Medical Superintendent of the University Hospital. Dr. Margaret Owens, the first woman doctor employed by the Department of Health, is a member of the clinic staff and will pay particular attention to the treatment of women and children. Included in the party also will be Dr. A. E. Haycock, Provincial Institutional Dentist; Dr. H.E. Gilchrist of the University of Alberta and four trained nurses.

### UNION JACK NEWS

Clarence Stager has also returned from Calgary where he has been attending technical.

Pete is doing a lot of walking these days. Perhaps he's looking for his lid. And how?

Bill Holten, one of the boys, has left for the south, and we all wish him luck.

Miss Marjorie Irving has returned from Calgary, where she has been attending Normal.

The Union Jack boys have a good start in football again and everybody is enjoying themselves (especially the Major).

Mrs. Lewis has made the last two meetings of the Union Jack C.G.I.T. very interesting by giving instructions in first aid and other needful nursing hints.

### ENSIGN NEWS

Miss L. Cooper and Miss V. McCannell motored to Calgary over the week end.

Mr. Richard Carrier from Holyoake Mass., is visiting with his sister Mrs. G. Marshall.

Mr. G. Marshall, Mr. E. A. Elston and Mrs. Elston motored to Calgary last Wednesday.

Mrs. K. Tolman and daughter Emily, with her sister, Mrs. E. Loxton, from Claresholm were visitors to Calgary last week.

Mrs. R. S. Calder from Hooshia, Idaho who has been visiting with her brothers Mr. J. and F. Ruark and sister Mrs. A. M. Meyers, returned to her home Friday.

Ensign church services held every Sunday afternoon in the school house. Preaching by the Rev. Farquhar at 3 p.m., Sunday school at 2:30 p.m. conducted by Mrs. A. Smith. Everybody welcome.

Mrs. Mellharvey from Detroit, Mich., with her two children and Mr. and Mrs. P. Dwyer and son left for Banff Saturday where Mrs. Dwyer and her sister-in-law expect to stay for some time.

The members of the bible studies met at the home of Mrs. E. Harris, Wednesday evening. There was a large number present. The meeting which was interesting was conducted by the Rev. Farquhar. All are cordially invited to these meetings every week.

## THE NEW McCORMICK DEERING TRACTOR

The new McCormick-Deering 22-36 tractor has been received by J. T. Willard, the local agent, and in speaking about the new tractor we learn there are few changes besides the increased power.

The general construction remains the same. The one-piece main frame eliminates twisting and warping. It is one reason for the long life, low-cost power, and almost negligible upkeep of the McCormick-Deering. All parts and units are built into this frame, which forms an all-light and dust-proof housing for them to run in.

The ball-bearing crankshaft is still used only much heavier to stand the strain of increased power. The bore is increased from 4 1/2 to 4 3/4 inches, which gives the increase in power which is now 22 hp. in drawbar and 36 on belt.

With the rapid development of power farming it is important to select a tractor that will give the utmost in power and service. With the McCormick-Deering you get Draw bar, belt and power take-off. The power take off is built into the machine and is in direct line with the motor. Prices are the same on the new tractor as on the 15 per cent. sold last year.

### WHEAT POOL NEWS

The decision of the Exchequer Court exempting Saskatchewan Wheat Pool from paying income tax on its commercial and elevator reserves will likely result in the Alberta Wheat Pool also being exempted from paying. This means a saving of approximately four thousand dollars to the Alberta Wheat Pool. Judge Audette who gave the decision in favor of the Wheat Pool stated in his judgment that it was clear that these reserves were the property of the members of the Pool and could not be considered in any other light. This has been the Pool's contention all along. The reserves are allocated on the Pool's books to the members according as they have contributed. The total reserves of the three Wheat Pools are over 20 million dollars. Total Alberta Pool's reserves are \$5,400,000.

The payment of \$202,000 has just been made by the Alberta Wheat Pool to its members. This payment represents the annual interest at 6 per cent in the reserves' contributions up to the 31st of August 1928. Another payment covering interest on reserves up to August 31, 1929, will be made during the coming fall.

## Makes Cleaning Easy!

### GENERAL ELECTRIC CLEANER

No Attachments Needed

HERE are two General Electric Cleaners that simplify housework . . . a Junior model for the rugs . . . and a Hand Cleaner for furniture and car upholstery, hangings, stairways and hard-to-get-at corners. Both models are guaranteed by Canadian General Electric and are exceptionally low priced.

The General Electric Junior Cleaner is specially designed for apartments and small homes. It has a sturdy aluminum body, is extremely light in weight and never needs oiling. Its brush loosens surface lint . . . and vigorous suction swallows all the dirt.

The General Electric Hand Cleaner is the modern substitute for cumbersome attachments, and is marvelously light to use. Let us demonstrate these models and explain how easy it is for you to own them.
